

ANISA ASHFAQ

Computer Science Student

Lahore, Pakistan | anisaashfaq234@gmail.com | linkedin.com/in/anisa-ashfaq-1a58a529a

WORK EXPERIENCE

Junior Software Developer | AllSpice Technologies

January 2025 – May 2026

Lahore, Pakistan | Full Stack Development | Agile/Scrum

- Developed and maintained responsive web applications using Vue.js, Quasar, and Django REST Framework.
- Built and integrated RESTful APIs, implementing backend logic and connecting frontend interfaces.
- Participated actively in Agile sprints including sprint planning, daily stand-ups, and code reviews.
- Collaborated with cross-functional teams to ensure timely and quality delivery of product features.
- Utilized Docker for containerization to streamline development and deployment workflows.

EDUCATION

BS Computer Science

October 2023 – Present

Lahore College for Women University

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems

SKILLS

Technical: Python, JavaScript, TypeScript, C++, HTML, CSS, Vue.js, Quasar, Svelte Kit, Tailwind CSS, Django REST Framework

Tools & Platforms: Docker, Git, MKDocs, MS Office

Soft Skills: Problem Solving, Time Management, Team Collaboration, Fast Learner

PROJECTS

Web-Based Halal Product Evaluation Platform

February 2025 – April 2025

- Built a full-stack platform for halal product and ingredient evaluation with admin management capabilities.
- Implemented product/ingredient search, halal compliance verification, and a responsive UI.
- Integrated REST API with database and conducted usability and accuracy testing.
- Technologies: Vue.js, Django REST Framework

Image-Based Plant Height Estimation System

May 2025 – June 2025

- Addressing the problem of manual plant measurement by building a system that estimates plant height from a smartphone photo using image processing and algorithmic analysis.
- Tools: Python, Data Structures & Algorithms

Smart Peer-to-Peer Network Visualization

May 2024

- Designed a P2P network system to add/remove nodes, display topology, and find shortest paths using Dijkstra's algorithm.
- Visualized network topology using BGL graphics library in C++.

CERTIFICATIONS & WORKSHOPS

International Workshop on Women Employability in Pakistan – Lahore College for Women University | December 2023

LANGUAGES

English – Professional Working Proficiency | **Urdu** – Native / Bilingual Proficiency
